Course Title: An Overview of Commercial Rolling Door Products

Course Number: AEC1372-01:1 (OH-EN-137203-1223)

Course Description: Rolling doors are used in heavy-duty, medium-duty, and light-duty applications for a wide range of commercial, industrial, and construction environments. This course provides a review of the features, components, options, and applications of various types of commercial rolling door products.

Learning Objectives:

Define the main types and applications of commercial rolling doors including those designed to meet specific facility requirements impacting the security and protection of the building occupants.

Determine the components and most often specified options for each type of rolling door.

Evaluate key criteria to select and specify the appropriate rolling door solution that meets the performance and aesthetic needs of the building owner and its occupants for various applications.

Identify important recent innovations in the construction and operation of rolling doors that enhance the thermal, energy efficiency, and sound transmission performance to control air, temperature, and sound within a facility.

Number of Course Hours Completed: 1 LUs

Name of Course Provider: AEC Daily Corporation

Name of Course Trainer or Educator: Jennifer Castro, Senior Product Marketing Manager

Course Trainer/Educator's Telephone #: 469-549-7144
